

RUTH LEE™

DOG TRAINING MANIKIN

FOR PROFESSIONALS WHO SAVE LIVES

Ruth Lee is a family business whose core values revolve around the care of our employees, service to our customers and uncompromising product quality. We are proud to serve YOU, the dedicated professionals who make such a valuable contribution to society.

We employ highly skilled people and source the most durable materials to ensure our products meet the highest international standards.

Our manikins are designed to represent the correct anatomic weight distribution of a real person, and we offer a range of different models to suit every conceivable scenario. This ensures that your training is as realistic and as effective as possible; preparing you for all eventualities.

DOG TRAINING MANIKIN

IDEAL FOR THE FOLLOWING TRAINING SCENARIOS:

Suitable for a range of rescue training scenarios including USAR, Mountain Rescue and Military training.

SPECIAL MATERIALS:

Constructed from the same flame retardant material used in Police ballistic/stab vests, offering 4x the strength and abrasion resistance of 16oz canvas or P.V.C. (conforms to OEKO-TEX® Standard 100, BS EN ISO 12947-2 & 14116: 2008). High density polypropylene webbing (25mm rated to 207 Kg, 50mm rated to 440Kg).

FEATURES & BENEFITS:

- Anatomically correct weight distribution to give the 'feel' of an unconscious canine.
- Tough enough to withstand being buried under concrete or steel lintels, driven over by a 4x4 vehicle, or dropped from a 2nd floor window without damage.
- Water repellent material, making it suitable for wet or foul scenarios such as HAZMAT/CBRN.
- Soft body joints to eliminate the risk of pinch welts and bruising; common injuries when using plastic bodied manikins.

NOT SUITED FOR:

- Use in temperatures above 100°C or flashover scenarios.
- Use in water.

EXTENSIVELY USED BY:

- Fire & Rescue Services.
- The Ministry of Defence (MOD) / Armed Forces world-wide.
- Police, Ambulance/EMS/HART teams.
- Coastguard.
- Canine First Aid Training Providers.
