

# MANIKIN CED TRAINING VEST AND LEG GUARD

## IDEAL FOR THE FOLLOWING TRAINING SCENARIOS:

Designed specifically for training officers and special operatives on the use of CEDs (Conducted Energy Devices) such as Tasers. The kit comes complete with a Vest which fits over the top of a Ruth Lee Manikin, and a leg guard that can be fitted over the lower limb of the manikin.

## FEATURES & BENEFITS

- Reduce the risk of injuries during training - using a manikin eliminates the need to use personnel in CED suits.
- Specially designed Manikin CED Training Vest and Leg Guard is a consumable item which will help prolong the life of your manikin during taser training.
- The Leg Guard is reversible and the vest comes with additional panels to increase the lifespan.
- Supplied complete with 1 x vest and 3 x leg covers. Also includes 10 x replacement foam panels for the vest helping to prolong the use of this product.

## SPECIAL MATERIALS:

The manikin is constructed from a tough flame retardant polyester, with high density polypropylene webbing reinforcements to stress points.

Closed cell foam provides protective padding to prolong the life of the vest and your manikin.

The vest and leg guard are reinforced using high density polypropylene webbing (25mm rated to 207 Kg, 50mm rated to 440Kg).

## IMPORTANT NOTE

This product is not suitable for Personal Protective Equipment (PPE) and should only be worn by a Ruth Lee manikin for the training of CED usage.
