

FULL BODIED AIRWAY MANAGEMENT TRAINING MANIKIN

FOR PROFESSIONALS WHO SAVE LIVES

Ruth Lee is a family business whose core values revolve around the care of our employees, service to our customers and uncompromising product quality. We are proud to serve YOU, the dedicated professionals who make such a valuable contribution to society.

We employ highly skilled people and source the most durable materials to ensure our products meet the highest international standards.

Our manikins are designed to represent the correct anatomic weight distribution of a real person, and we offer a range of different models to suit every conceivable scenario. This ensures that your training is as realistic and as effective as possible; preparing you for all eventualities.

FULL BODIED AIRWAY MAN<mark>AGEMEN</mark>T TRAINING MANIKIN

IDEAL FOR THE FOLLOWING TRAINING SCENARIOS:

First responder airway management, Confined Space, Road Traffic Collision (RTC), limb entrapment under a heavy object, or indeed any scenario where airway management could be required under challenging circumstances.

SPECIAL MATERIALS:

Constructed from the same flame retardant material used in Police ballistic/stab vests, offering 4x the strength and abrasion resistance of 16oz canvas or P.V.C. (conforms to OEKO-TEX® Standard 100, BS EN ISO 12947-2 & 14116: 2008). High density polypropylene webbing (25mm rated to 207 Kg, 50mm rated to 440Kg). Note material description does not apply to torso.

FEATURES & BENEFITS:

- Full bodied manikin promotes more realistic and effective training.
- The manikin accommodates the Simulaids' adult airway management torso, and can be ordered without one if required.
- Torso supplied has anatomical landmarks including the sternum, rib cage, and substernal notch. The trainer also contains teeth, uvula, vocal cords, glottis, epiglottis, larynx, arytenoid cartilage, trachea, oesophagus, inflatable lungs and stomach. It allows for placement of a nasogastric tube and accepts Combitube®, E.O.A., E.G.T.A., P.T.L. and i-gel® airways.

- Soft body joints eliminate the risk of pinch welts and bruising; common injuries when using plastic bodied manikins.
- Supplied in a tough carrying holdall for easy handling and storage.
- Comes complete with boots and overalls, which are easily replaced if damaged.
- Now available with an optional IV arm got cannulation.

NOT SUITED FOR:

- Use in hot fire training See our Fire House manikin.
- Use in water See our Water Rescue range.

OPTIONAL EXTRAS

• Tough drag protectors and overalls, to greatly extend the life of your manikin.

EXTENSIVELY USED BY:

- UK Emergency Services.
- A wide spectrum of companies across industries.
- Health & Safety and First Aid Training organisations.
- Equivalent organisations across North & South America, Europe, Australia and Asia.
